## Independent Colored Conven.

The State independent colored conference met in Charleston, our State capital, on Thursday of last week, and went into secret session with closed doors. Forty-nine delegates were present. The body resolved itself into a State convention and put a full ticket, composed entirely of colored men, in the field. H. C. Hawkins, of Charleston, was made permanent chairman, and E. A. Turner secretary. Resolutions were adopted calling attention to the fact that the republican party has persistently refused to give the colored man the recognition to which he is entitled, notwithstanding the fact that there are 11,600 colored voters in the State, nearly all of whom are republicans, and asking that petitions be presented to the Legislature requesting the adoption of previsions that will prevent discrimination in all branches of study between white and colored pupils in the public schools. They declared pupils in the public schools. They declared themselves to be encompromisingly opposed to monopolies, corporations and trusts of a-ny kind, and advocating such tariff reduction

it will be ready. The New York Democracy.—The New York democratic State convention. held at Buffalo on Wedneday of last week, simply voiced the almost unanimous sentiment of the party in nominating by acclamation the Hon. David Beunett Hill for Governor, Gen. R. F. Jones for Lieutenant Governor, and John Clinton Gray for Judge of the Court of Appeals, all present incumbents. Gov. Hill is an unawerving democrat, and although he has incurred the displeasure of the mugwunps and some of the more advanced advocates of civil-service reform in his own party, he has great strength with the masses, as was demonstrated in his campaign for Governor three years ago, when, leading what was supposed to be a fc riorn hope, because of party divisions growing out of the dis ribution of the federal offices, he was elected Governor over a popular opponent by nearly 15,000 majority, against a majority of only 1,000 for the presidential electoral ticket the year previous. In order to destroy Governor Hill's popularity with the reople, the republican majority of the New York State Senate at the last session ordered an investigation and contractors, with the hope of digging up comething to the discredit of the Governor, but the scheme failed. As a proof of the complete unity of the New York democracy, it may be mentioned that the permanent chairman of the convention, the Hon. C. Cady Herrick, was until recently one of the few prominent democrats who expressed oppasition to the regomination of Governor Hill. With a ticket headed by Cleveland, Thurman and Hill, and with all factions of the party earnestly united in its support, there can ecarcely be a doubt of a democratic victory in New York in November. [The following State executive committee that Bodwell, the republican candidate in 1886, was extremely unpopular and failed to poll the full party strength. A 'political revolution' on the same scale would give the electoral vote of New York to Mr. Cleveland by about 11,000 majority, instead of 1,600 as in 1884, and Indiana by 10,000 majority instead of Georgia and the Carolinas.
